

Copthorne curriculum Planning  
Autumn 1- Growing Up in Great Horton

## Year 1 Copthorne Curriculum Theme 1 (Autumn 1)

As **Geographers** we will look at our school, the people who work there, and the roles they play. We will develop our understanding of the local area, and observe the neighbourhood around us.

In **Computing** we will be developing our computer skills and learning how to log on and off of the computer.

During **Outdoor PE** we will be learning different kinds of skills in games.

## Growing up in Great Horton

As **Musicians** we will be learning about rhythm in an old school hip hop song called "Hey you".

As **Scientists** we will be learning about our bodies and using our senses. We will be investigating the seasonal changes, and how it affects our local area.

Diversity and Heritage	Wellbeing	Creative Opportunities	Experiences
Looking at the jobs available in the local area.	Learning how to stay safe in the local environment.	Children will be encouraged to ask questions and find information about the local area that they live in.	Using maps to explore a route.
Understanding how the world around them works, and how England is differs from the rest of the world.	Looking at ways to keep ourselves healthy.	Children will have open access to arts materials to develop their skills independently.	Visiting Bracken Hall.
	Being outside in the local area.	Children will be encouraged to practice their games skills outside of classroom time.	Constructing their own musical beats.
	Social. Moral, Cultural, Spiritual and Emotional Development		
	Throughout different activities children will develop strategies for getting along with each other, working as a team, listening to each other's questions and solving problems together. During the first term the children will be encouraged to follow rules across school.
